## THE THEATRES

## POLI'S

Frank Lator, vaudeville's latest and greatest comedian, is still continuing to make a sensational hit at Poli's in his musical comedy success, "Back to Earth." Mr. Lator, who is very popular with Bridgeport audiences from his great hit in "Coming Thro' the Rye" and "Prince Humbug," has gone into vaudeville with several of his clever people, and is presenting "Back to Earth," the greatest laugh hit in the variety, with all his old time ability. Lator is a big laugh from his entrance to the final curtain call. With him are working Florence Morrison, one of the clever leads in "Prince Humbug"; Miss Violet Arthur and Mr. Edward Earle, both artists of ability. Lator and "Back to Earth" are about the best things seen here this season.

There are several other features of more than usual interest and merit on this week's bill at Poli's. Laura Burt & Co., presenting the famous comedy playlet, "The Order of the Bath," are receiving an ovation at every performance. Some of the best are: Van Camp, "The Man With the Pig"; Frank Whitman, "The Dancing Violinist"; Lillian Shaw, the clever and popular singing character comedienne; Flood Brothers, the merry-making acrobats; Bert and Bertha Grant, a lively and versatile song and dance team; and the Electograph in the latest motion pictures.

For the headline attraction for next week, Manager Poli has secured the biggest and most sensational production in the variety, "The Star Bout." An act that has had a phenomenal run in the big New York vaudeville houses, and has been secured for Poli's Bridgeport patrons only after long negotiation. The "Star Bout" is the most pretentious thing in vaudeville, using 40 people, and incorporating the sensational ring-side scene and two other intensely dramatic scenes. A beautiful love theme runs through the piece, which for dramatic interest is not equalled on the vaudeville stage.

## SMITH'S.

"The Blue Mouse" will be the offering again for this evening, and there will be a large attendance is assured by the heavy demand for seats.

Busy people who do not like to lose a day and those to whom time represents money all of them recommend Cyrus Plaster for Backache. Many of them have used this plaster and know from experience and many others have learned from their friends that Cyrus Plaster gives relief when others have failed. Twenty-five cents will save a day's pay. Cyrus Pharmacy, Fairfield Ave. and Courtland St.

The reception given Miss Lillie Hall and her associates in the cast last evening and this afternoon was very cordial, and evidenced the fact that Miss Hall has a host of warm friends in this city, and that the play had left behind it, on its previous appearance, a decided impression. There are still many excellent seats remaining for this evening, but they should be secured as early as possible.

Miss Cuba Niblo, who takes the name part in the dramatization of Charlotte Bronte's celebrated novel of "Jane Eyre," to appear here the latter half of this week, with daily matinees, and at popular prices, is an example of what American pluck and perseverance can accomplish when one is thrown on one's own resources for a living. Unlike many actresses who have attained the prominent place Miss Niblo now occupies on the stage, Miss Niblo was not trained for the stage in her early life, but force of circumstances was such that she turned to the stage as a means of not only supporting herself, but also assisting her father in regaining losses sustained in the island of Cuba. And from this island is where she gets her Christian name of Cuba, as she was born there, her father being a large tobacco raiser, but at the time of the Spanish-American war, and the constant guerrilla warfare incident thereto, his plantation was soon devastated, and becoming discouraged he returned to the States and began life over again. Miss Niblo's present high standing in the theatre profession is the result of profound study of the conditions to be met if one desires to be successful on the stage.

The phenomenal success of the book play, "Quincy Adams Sawyer," is repeating its success again this season when crowded houses greet its every appearance. This popularity is attributed to the preceding fame of the book that extended from ocean to ocean and that the play is in itself the most genuine piece of life ever given to the lover of bucolic drama. The simple, pure charm of the book is distinctly preserved in the play. The characters are drawn so close to life that it requires an effort to believe that they are not real. They are just such types as are found in every New England village and portrayed by actors who are in perfect sympathy with their roles. In fact, it is a case of human nature appealing to human nature. Theatre goers are looking forward to the treat in store for them when the play comes here at next week, with daily matinees commencing Tuesday.

## DR. BLUMER HAS LARGE AUDIENCES AT WARNER HALL

Dr. L. Blumer gave free treatment to half a dozen persons at the second demonstration given by him in Warner Hall yesterday afternoon. Between 25 and 30 people, afflicted with incurable ills were on the stage and the hall was comfortably filled with spectators. His Galvin of 1934 Sea view avenue, Dr. Blumer told the audience that the woman was blind. While talking to the audience the doctor applied his hands to the woman's eyes and head and she apparently fell asleep. When she was roused a few minutes later she was able to distinguish men from women in the audience.

Charles Campbell was the best subject of the afternoon. The left side of his body was evidently paralyzed. He carried a cane and walked with difficulty. A few minutes of treatment by Dr. Blumer made him feel better, he said. He was able to raise his arm and leg and then rose and walked about the stage without the aid of his cane which he carried over his shoulder. He afterwards told the audience to assist him, his wife carrying the cane.

Annie Towalski of 1125 Hancock avenue, 17 years old, was unable to move. Her condition was pitiable. The joints of her arms and legs were ossified. Dr. Blumer treated her for a few minutes passing his hand over her face and head. She then was able to raise both her hands and also moved her legs.

R. Revel of 749 Main street, was treated for partial blindness and was able to distinguish objects in the audience after a short treatment. All of the patients said they felt better after they were treated. Dr. Blumer evidently expects opposition from the regular physicians for he called upon the members of the audience to use their influence to prevent the passage of a bill in the Legislature which he characterized as a "wicked plan to prevent the public from receiving his treatment." He described the medicines prescribed by regular physicians as "poison." After the free demonstration was over the doctor invited those on the stage to his rooms for thorough treatment. Dr. Blumer promises that the treatment he gives them will be permanent. While he acknowledges that hypnotism enters into his treatment he asserted that it was not necessary to put his patients to sleep to obtain results.

## SHRECK GOES BACK TO THE MINORS

Chicago, Jan. 27.—"Ossie" Schreckengost, substitute catcher for the Chicago American League team, has been released to the Columbus, Ohio, team of the American Association. "Shreck" was formerly with the Philadelphia team of the American League.

Cleveland, Ohio, Jan. 27.—Bill Bradley, third baseman of the Cleveland club, will go to Lakeside hospital today to submit to an operation for varicose veins. Open sores on his legs compelled him to wear shields last season. Lack of circulation, due to varicose veins, is blamed for the failure of the sores to heal, and Dr. M. H. Castle, physician of the Cleveland club, held him in salary last season. Dode Birmingham, center fielder, is just recovering from a similar operation. "If an operation will help in winning the pennant—and I believe Cleveland will win—I'll go," said Bradley.

Pittsburg, Jan. 27.—Trouble has developed over a contract between Ed. Ward, third baseman of the Cleveland club, and Barney Dreyfuss, owner of the Pittsburg Baseball club. It is thought now that the second baseman may not be found in the line-up of the Cleveland club. Ward has been offered him, and he is protesting against it. Abbatichio has announced that he will not play the coming season if the club in salary has been offered him. He declares the cut will stand, and it develops today that Tommy Leach, on signing his contract, specified that he was not to play the infield. The club had intended to have Leach play "not to play third base," and it now develops that Leach is being held for second base in case of trouble.

## BRIDGEPORTERS ADMIRE HARRY BURKE'S WORK

Harry Burke, the youthful roller skater of Bridgeport, gave the second of a series of exhibitions at the Auditorium rink in North Main street last night. Harry did not feel lonesome for there was a crowd of Bridgeporters to see him. Harry first came on in clown attire and went through some clownish antics which were as well as funny. He then doffed the foolish garb and went into the legitimate work. His frequent intervals, Burke will give another exhibition Thursday and Saturday nights in the same rink.

## POINTS OF INTEREST.

Latest Spring Mourning  
Millinery now being shown at E. B. Dillon & Co. 1105 Main St.  
The Menace of a Low Coal Supply.  
These January days, the thermometer seems too high for winter comfort and the weather rules have arranged, in consequence, that the coal supply must still consume its daily supply of fuel and are days when a low coal supply is a menace. The best coal for use in stoves, furnaces and ranges is to be secured from the Naugatuck Valley Company—best coal in town—and perfect satisfaction from its use. Telephone, or downtown office, 154 Fairfield avenue.

New Ideas in Travelling Conveniences.  
It is interesting to note in how many directions inventive genius shows its cunning. Ladies travelling, for instance, who remember the terrors of packing their handsome gowns and hats in the old fashioned trunks or suitcases, will be glad to learn that to-day, in which many complete changes of costume may be carefully hung from hangers, with no more danger of marring than is present when they are repacking in the closet at home. Then there are hat trunks, especially designed for carrying a number of hats, such cases that are fitted with every toilet requisite, etc. The Wooster & Atkinson Company, corner Broad and John streets, carry travellers' requisites of every description, and the prospective tourist will find it well worth while to examine their stock.
